

PETROLEUM DOWNSTREAM STATISTICAL BULLETIN

Fourth Quarter Publication, 2025

Vol.4

1.0 Introduction

The NPA's quarterly petroleum downstream statistical bulletin provides statistical information on key indicators of the petroleum downstream industry, such as crude oil prices, petroleum product prices, petroleum products supply and demand, stock situation, BDCs/refineries performance statistics, etc. The information contained in the statistical bulletin is expected to assist downstream industry players, academia, students, and policymakers in making informed decisions as well as aid research work.

2.0 Crude and Refined Products Prices

Brent crude oil price traded between a range of \$62.82/barrel and \$68.57/barrel per pricing window during the Fourth Quarter of 2025. Refined product prices on the international oil market traded between US\$377.18/MT and US\$775.58/MT per pricing window for the same period. Table 1 shows the average prices of Brent crude oil and refined products for the period under review.

4.0 Petroleum Products Stock Situation

At the end of the Fourth Quarter of 2025, diesel had the highest stock of petroleum products across depots in the country, while kerosene had the least stock. Table 5 shows the stock situation on the first and last day of the Fourth Quarter of 2025.

5.0 Petroleum Products Supply

5.1 Imports

An estimated **1,817,147.262 metric tonnes** of petroleum products were imported in the Fourth Quarter of 2025. Table 6 shows the quantity of petroleum products imported during the period under review.

Table 6: Petroleum Products Imports (MT): Q4-2025

Additionally, **373,027 metric tonnes** of crude oil were imported for the period under review.

5.2 Domestic Production

An estimated **146,746 metric tonnes** of petroleum products were refined domestically in the Fourth Quarter of 2025. The 362% increase in domestic production for the fourth quarter 2025 as compared to the same quarter 2024 was due to Sentuo Oil Refinery Limited resumption of operations in 3rd quarter 2025. Table 7 shows the total domestic production of petroleum products for the period.

6.0 Petroleum Products Demand

6.1 National Demand

A total of **1,615,713 metric tonnes** of petroleum products were supplied to the market in the Fourth Quarter of 2025 (see Table 8).

6.2 Regional Demand

Table 9 shows the regional demand for petroleum products for Q4 2025. As expected, Greater Accra consumed the highest, representing about 28.07% of total products consumed, while the Oti region consumed the least (0.79%) for the period under review. The regional shares of total petroleum products consumed are provided in Table 10.

7.0 Petroleum Service Providers (PSPs) Market Share

7.1 Bulk Import Distribution and Export Companies (BIDECs)

The performance of BIDECs during the Fourth Quarter of 2025 reveals that the top ten performing companies collectively accounted for a market share of **73.26%**. In contrast, the remaining BIDECs and refineries held a market share of **26.72%**. Overall, a total of 46 BIDECs were active during the reviewed quarter. Please refer to Table 12 for the detailed performance statistics of the BIDECs and refineries for the Fourth Quarter of 2025.
